Dear Sir:

I, Gunnar G. Leinberg, declare:

1. I am a registered patent attorney with the law firm of Nixon Peabody LLP.
2. In the Spring of 2002, Nixon Peabody LLP was requested to represent Applicants' employer, Anderson Power Products.
3. In conjunction with this Anderson Power Products' patent files, including the above-identified patent application, were transferred to Nixon Peabody LLP from Richard J. Birch, Applicant's former patent attorney.
4. At a meeting at Anderson Power Products in May of 2002 to discuss the status of intellectual property law matters, we learned that Applicants were not aware that the above-identified patent application had become abandoned.

5. Shortly thereafter, Anderson Power Products requested us to prepare and file a petition to revive the above-identified patent application.

6. Beginning in June of 2002, we began to gather the necessary information to respond to the outstanding Notice To File Missing Parts Of Application for the above-identified patent application.

7. Additionally, we located and contacted applicant's former attorney, Richard J. Birch, to inquire about the underlying facts and circumstances regarding the abandonment of the above-identified patent application.

8. In response to our inquiry, in early August of 2002 Applicant's former attorney, Richard J. Birch, told us there was no express abandonment of the above-identified patent application and he did not receive any instructions from his former client to abandon the above-identified patent application.

9. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
